

Alexis Misslin

PHP / Symfony Developer

Montréal · [linkedin.com/in/alexis-misslin](https://www.linkedin.com/in/alexis-misslin)

Authorized to work in Canada - open work permit

PROFESSIONAL SUMMARY

Backend PHP/Symfony developer with nearly five years of experience spanning professional software development and entrepreneurial projects. I have worked on designing and enhancing multi-country e-commerce applications, with a strong focus on business logic, APIs, data and reliability. I regularly collaborate with product and business teams to turn complex needs into concrete, maintainable technical solutions.

SKILLS

Backend

PHP, Symfony, Doctrine, REST and SOAP APIs

Data

SQL, MySQL, PostgreSQL, Algolia

Front-end

Twig, JavaScript, HTML, CSS, jQuery

Quality and tools

Git, Docker, Cypress, RabbitMQ

Business & Product

Business logic, requirements analysis, technical documentation, collaboration with product and business teams

PROFESSIONAL EXPERIENCE

PHP / Symfony Developer

Efipeek

Apr. 2023 - Apr. 2026

Croix, France

- Designed and enhanced business features in PHP/Symfony for a multi-country e-commerce platform: product availability, cart, orders, deliveries, returns and notifications
- Developed and refactored backend services with Symfony and Doctrine to implement complex business rules and process data
- Integrated external services through REST and SOAP APIs, including data processing and validation to ensure data reliability
- Developed server-rendered interfaces and user flows with Twig, with regular work in JavaScript, HTML and CSS
- Contributed to requirements analysis, estimation, ticket breakdown and discussions with business and product teams
- Continuously improved quality and stability through code reviews, tests, progressive refactoring, logging, monitoring, incident analysis, and technical and functional documentation

Co-founder - Product and Web Development

La Bouclup'

Mar. 2021 - Jul. 2022

Lille, France

- Co-created a vintage and upcycled clothing rental project, supported by EuraTechnologies and 1Kubator
- Defined the concept, positioning and business model: subscriptions, individual rentals and B2B exploration
- Designed user flows and business rules for availability, reservations, returns, inventory and logistics constraints
- Developed an MVP in PHP/Symfony with an EasyAdmin back office, Stripe integration and subscription management
- Contributed to product strategy, user experience and brand identity

Symfony Web Developer Intern

Waigéo

Jan. 2018 - Mar. 2018

Bruay-la-Buissière, France

- Developed features with Symfony, managed data and contributed to application testing

Symfony Web Developer Intern

Waigéo

May 2017 - Jun. 2017

Bruay-la-Buissière, France

- Designed and developed a website for the City of Bruay-la-Buissière with Symfony

PROJECTS

Carter-Cash Multi-country E-commerce Platform

Apr. 2023 - Apr. 2026

- Designed and enhanced the product availability module: store and warehouse inventory, multi-country rules and data delivery to user interfaces
- Developed order-related user flows for click and collect, home delivery, returns, and product- and country-specific rules
- Integrated Algolia and external services for search and product data, ensuring reliable data exchange between systems
- Handled ongoing enhancements and maintenance through refactoring, Cypress tests, scheduled tasks, Symfony commands and incident analysis

Environment: PHP 8, Symfony 7, MySQL, Twig, JavaScript, RabbitMQ, Algolia, REST/SOAP APIs, Docker

EDUCATION

MIAGE Coursework - Management Information Systems (Third-Year Undergraduate Level)

Sep. 2018 - Apr. 2020

Université de Lille

Lille, France

Coursework in software development, databases, information systems and project management

BTS SIO - SLAM Specialization, French Two-Year Postsecondary Diploma

Sep. 2016 - Jun. 2018

Lycée Malraux Béthune

Béthune, France

Software Solutions and Business Applications specialization - application development, databases and information systems

LANGUAGES

French: Native

English: Upper-intermediate
